Global Energy has been working with Filemaker since 1990, and has developed my solutions and applications for the renewable energy industry including Capstone Turbine distributed energy industry. This website was built using our own customized FileMaker database solution to quickly deploy a functional database with imbedded links, pdf, downloads, and other functional resources for better user experience.

Database Using FileMaker Software

Global Energy exclusively uses FileMaker database software to organize and deploy massive amounts of turbine data, images, and information.

This website was organized, formed, and developed by our own customized FileMaker database html maker.

We use First Principles to put function over form, so you won't see useless Flash or meaningless graphics, Java, or door slammer pop-ups.

FileMaker PDF Algorithm Research and Development:

We been using Filemaker since 1993, and is now diving into the analyst world of deciphering data. First project is GME (Gamestock). The algorithm is based on finding stocks that are being sold short, in combination with hedge fund or other fund shorts. These lists are publicly available in Europe, but a bit harder to find in the USA. The goal is to identify good candidates which may go up in price, as a result of social media (Reddit) and industrial grade short sellers. We plan on establishing a website to promote such research at the link below.

Filemaker Software

Need to get organized ? We are now making available our software apps to the power industry and travel bloggers. Based on Filemaker platform (Mac, Windows, and Mac IOS Filemaker Go), we have developed some industry specific apps that will increase your efficiency, reduce time, and give you valuable heads-up time.

Need an App Developed ? We are database experts, and have developed software solutions for desktop computers, and IOS devices using the FileMaker platform.

For Developers:

Filemaker Database Platform: Filemaker Website

Filemaker Mobile Platform: iPhone, iPad, IOS Website

Filemaker Plug-in: Extend Filemaker Capabilities with Monkey Bread Software Plug-ins Software for iPhone, Mac OS X, Linux and Windows with Xojo, C/C++/Objective-C, AppleScript, Java, Perl, PHP and HTML. Monkeybread Software uses Xojo for software development. Along with a few free and shareware titles, we offer custom software development and plug-ins for FileMaker, Xojo, Real Studio and REALbasic.

FileMaker Example Call Log

Business forms.

FileMaker download which requires FileMaker to run.

You can use the desktop FileMaker, or FileMaker GO (free) which is for your iPhone or iPad.

Solar Panel Cost and Performance Calculator

The Solar Panel Analyzer was developed by Global Energy for Electric Ship to analyze solar panel purchasing, specifically focussing on the folloing criteria:

1. Dimensions
2. Performance
3. Cost Per Watt
4. Cost Per Square Inch
5. Surface Area
6. Volts - Amps - Watts
7. Volume
8. Watts Per Pound
9. Listing Information - Warranty - Discount Pricing

Search Engine Spider Database Solution using FileMaker

This is one of our more successful solutions that we have been using and developing over the past 10 years to help improve Google search ranking, overall visibility, and bring content to our sites.
